

KCC 2018 Waste Audit Report Data Sheet		Name:			
Building: LRC		Bucket tare:	7.8		
		Bag vol. (gal.): 55 gallon			
WASTE CATEGORIES		BAG 1		BAG 2	
		WEIGHT (LBS)	VOLUME	WEIGHT (LBS)	VOLUME
Items of Interest					
Plastic to-go cups		0.6			
Wax paper cups (coffee cups)		0.5			
Compostable take-out* (utensils, chopsticks and boxes)		20.6			
Plastic Takeout (Bento boxes and plastic utensils)		1.3			
Straws			14 straws		
Paper					
Recyclable Paper**		11.5			
Non-Recyclable Paper (glossy, contaminated)					
Cardboard		0.9			
Paper towels					
Plastic					
Plastics (#1-2)		?			
Plastic containers (non HI-5; #3-7)					
Food wrappers		1			
Styrofoam		0.4			
Other Plastic***		7.5			
Glass					
HI-5 Glass			1 glass bottle		
Bottles & Containers (non HI-5)					
Metals					
Aluminum and Steel (soda cans & soup cans & tinfoil)		0.2			
Non-recyclable					
Organics					
Food waste & Napkins					
Green Waste					
Misc.					
Construction and Demolition					
Hazardous Waste (HHW)					
Office/school supplies			1 pen, 1 highlighter		
Mixed Residue/Misc.		2.2			

\*Food waste was combined with compostable take-out (boxes, plates, napkins, utensils) since it was thought they could be composted together. Compostable utensils were also included but they have been found to not be compostable in a backyard compost pile. Plastic compostable to-go cups were not included in this category.

\*\*A bag of shredded paper from OSC was accidentally mixed in to the weight for LRC. This bag may have been about 4 lbs but numbers were still recorded as LRC weight. This may make the weight slightly off.

\*\*\* Other plastics included non-HI 5 bottles, plastic packaging, bottle caps and any other plastic container not #1-2.
